RE: RRG/Clayton Chemical Co. Superfund Site

Based on our phone conversation on March 20, 2002, it is Nascote's understanding that the USEPA is willing to allow the receipt of the commitment letters from the PRP's postmarked no later than April 5, 2002. The time frame allotted in the March 6, 2002 general notice letter refers to 5 days after the March 28, 2002 PRP meeting putting the response time over the Easter holiday and weekend.

If there are any questions, please contact me at (618)327-4381

Sincerely,

NASCOTE INDUSTRIES, INC.

Jim Evilsizer
Environmental Engineer
